19. REVISE:

Supporting Probation and Foster Youth Impacted by Human Trafficking with Community-Based Supports

Revised recommendation as submitted by Supervisor Horvath: Instruct the Chief Probation Officer and the Directors of Children and Family Services and Youth Development, to report back to the Board in writing within 30 days on the following: ...

Probation and DCFS to jointly develop and submit a coordinated plan of support for dual-jurisdiction youth impacted by trafficking. The plan should leverage the County’s existing 241.1 protocol and ~~Considering Child Trafficking Unit staffing limitations, the plan should~~ examine options to minimize dual-system involvement by consolidating care within the least restrictive, most supportive system ...

Probation and DYD to develop and submit a plan with an estimated budget to ensure all youth identified as being impacted by trafficking or at high risk under Probation supervision are referred to contracted community advocacy providers and other DYD-contracted providers as appropriate, including youth in the community and youth while in custody at Campus Kilpatrick and Dorothy Kirby Center. The plan should include procedures for community advocacy agencies to engage youth as alternatives to incarceration, while in custody so that relationships are established prior to release, and to engage parents and

caregivers during this period to prepare families to receive their youth home or into community placements, ensuring continuity of care and a warm handoff to services upon release. If such a plan is currently under development through the County's work to end girls' incarceration, Probation should provide such plan or status update with the expected completion date. The plan and estimated budget should explore DYD's current community-based services and contracts, and the availability to expand or generate new community based services and resources to further support community care. (26-1076)
