			Genevieve M Clavreul	This report shouldn't be removed from future agendas, nor should it be combined with the written biannual report on Housing for Health. This report should remain independent and available for scrutiny – unless the goal is to hide the progress or lack of progress from the Public eye. Also, why is the Director of Health Services instead of the Director of the Health Agency making this request? Also item 2 to 7 have the usual TBD it would be important to have a vague idea for completion, and why item 24 and 25 have been discontinued in this report?
